Attorney's Docket No.: 07039-411US1

E₃ 4. (Three Times Amended) The method of claim 1 wherein said retroviral packaging cell displays multiple growth factors.

E₄ 6. (Twice Amended) The method of claim 5 wherein said growth factor is expressed as a fusion with a viral envelope protein and is fused to the envelope protein via a cleavable linker.
SUB F2)

E₅ 7. (Three Times Amended) The method of claim 5 wherein said retroviral envelope protein is viral envelope SU protein.

SUB F3)
E₆ 8. (Twice Amended) The method of claim 1 wherein said retroviral packaging cell further expresses nucleic acid encoding a receptor to target the cells to the bone marrow and/or an immunosuppressive factor so that the receptor and/or immunosuppressive factor are displayed on the cell surface. --
